

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I am a senior citizen that only makes between 6 to 10 long distance telephone calls a month from my home telephone. In addition, I have a prepaid wireless telephone that is only used by my wife for emergencies. Under the flat fee proposal you are considering, I would pay the same as people or businesses that make many calls. In other words, I would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Gregory Samoluk
